**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.  
  
Group I, claim(s) 18-25, drawn to a blank for producing dental prostheses.  
  
Group II, claim(s) 26-31, drawn to a process for producing dental prostheses.
3. Newly submitted claims 18-31 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Initial claims were directed to a process for producing dental prostheses. The only independent claim currently listed is claim 18, which is drawn to a blank.
4. The amendment filed on 04 September 2008 canceling all claims drawn to the elected invention (the original presentation of the process claims) and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims (blank) are not readable on the elected invention (process) because the previous claims were directed towards the process (see also Applicant's title of the invention which states "Process for Producing Dental Protheses"). No claims are presently drawn to the originally elected invention.
5. Examiner further notes that Claims 26-31 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Art Unit: 3725

6. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

7. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 18-31 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
